

Latching Device

6-510

Advantages

- Latch element compatible with compression latch with insert 6-504.
- High transmission ratio with high contact pressure due to planetarygear.
- Compression 10 - 20mm.
- Multi-point latch by using flat rods.
- Closing-and opening operation 90°.
- 1300N of force per latching point.
- Vibration-proof according to DIN EN 61373.

Material

- **Housing, slider and cam:** zinc die, zinc plated
- **Cover:** PA6, black
- **Roller:** POM, black

Remarks

1. stroke 28.5mm
2. closed
3. open
4. e.g. welding stud M6x25

Latching device, internal
