

Roller Cam height adjustable

1-105

RoHS
WEEE

Advantages

- The roller cam reduces the friction and eases the closing.
- No scratching or spalling of the paint at the inner part of the bending.
- Adjustable in height from H20 to H25.
- Suitable for all inserts, swinghandles and multipoint locking systems with square 8mm.
- H-dimension of the cam easy to adjust because of impressed height marks.

Material

- **Cam:** zinc die, zinc plated
- **Roller:** PA, black
- **Tenon blocks, distance bushing:** zinc die, untreated
- **Socket head screw:** teel, zinc plated

Remarks

Roller cam

Product number	variable H-dimension	Length	Diameter Ø	Delivery Unit
