

DST Reinforcement Plate

6-079DST

Advantages

- For cutouts 30x8mm, 30x10mm, 30x14mm and 30x15mm.
- For using the DIRAK-SNAP-Technology in thin-walled sheets and for higher loads.
- Tool-less installation at the same time or later.
- This provides a vibration-proof connection of the reinforcement plate with the DST product.
- One side angled to be used at bendings.
- Can also be used for the uninstallation of DST products with the a.m. cutouts.

Material

- **Reinforcement Plate:** steel, zinc plated

Remarks

The clamping range (S) results in sheet thickness and reinforcement plate.

Example: sheet thickness 1mm + reinforcement plate 2mm = 3mm clamping range

Reinforcement plate

	Product number	Cutout	Cutout 2	Delivery Unit
a)	292-0701.15-01530	30 x 14 mm	30x15 mm	10 pcs.
b)	292-0702.15-01030	30 x 8 mm	30x10 mm	10 pcs.
